

Local, Award Winning, Craft Beer

Our passion for beer is rivaled only by our commitment to produce an uncompromising taste experience.

Our Story

At Off the Rail Brewing Co., we love making craft beers almost as much as we enjoy drinking them.

Founder Steve Forsyth has a long history with Craft Beer, from purveyor of fine Craft Ales during his Railway Club family days, to hop farming at Hatzic Lake, he has had an enthusiasm for all beers Craft.

Our recipes are influenced by traditional beer styles, both European and North American and emphasize taste above all else. We hand craft each and every batch and follow the flavour right through to packaging and our room taps.

Beer, social engagement, sense of community and sharing with friends are an important part of what we do at Off The Rail Brewing Co.
